

Agent
Joueur

Agent
Arbitre

Options?
Leurs conséquences?

Coup légale?
Comment l'appliquer?

game_logic

```
graph TD; A[Agent Joueur] --> D{game_logic}; B[Agent Arbitre] --> D;
```

The diagram illustrates the interaction between two agents and a central game logic component. At the top left, a rectangular box labeled 'Agent Joueur' has an arrow pointing down to the top-left vertex of a diamond-shaped box labeled 'game_logic'. At the top right, a rectangular box labeled 'Agent Arbitre' has an arrow pointing down to the top-right vertex of the same 'game_logic' diamond. To the left of the 'game_logic' diamond, the text 'Options?' and 'Leurs conséquences?' is displayed. To the right, the text 'Coup légale?' and 'Comment l'appliquer?' is displayed.
